

Translates DMX/RDM and 0-10 V into PowerSync4 for the digital control of intelligent luminaires. This allows highly-granular addressing and high-speed digital control of every luminaire, using only three wires. The PS4 data injector is DIN rail mountable, designed to be installed in a switchboard, next to the power supply and circuit breaker that is supplying power to the controlled lighting circuit. Accepts a growing list of standard protocols (0-10 V, DMX/RDM) for simple integration with a wide selection of control systems using these industry standard protocols.

Electrical

Unit Power Consumption	<5 W
Input/Output Voltage	Low Voltage 30-48 Vdc
Connected Current	16 A
Electrical Connections	30-48 Vdc Input Terminal Block PowerSync™ Out Terminal Block DMX In / Out RJ45 Sockets

Control

Dimming Options	DMX/RDM, 0-10 V
------------------------	-----------------

Physical

Housing	Extruded marine-grade aluminum
Finish	Anodized black
Mounting	35 mm DIN rail
Ambient Operating Temperature	-40 °F to 122 °F (-40 °C to 50 °C) non-condensing
Weight	1.8 lbs (0.8 kg)

Certification & Compliance

IP Rating	IP30
Approved Use	Low voltage lighting systems
Environment	Dry locations only
Certifications	ETL, CE, CCC, FCC

Dimensions

Edge Mounting

Back Mounting

* Note:

Mounting can be configured either way during site installation.

Mode Switch

10 Position Mode Switch

Label	Descriptions
0	DMX/RDM
1	DMX/RDM + Relay
2	Test All Channels Off
3	Test All Channels On
4	Test 4 Color Cycle
5	0-10 V Sourcing
6	0-10 V Sinking
7	CRM (Optional)
8	USB
9	Firmware Update

Switch modes refer to Generation 2 ONLY. For all Generation 1 modes, setting and product information visit lumascape.com/resources/discontinued-products
